In 2018, the Chinese government was determined to curb property speculation by intensively promulgating regulatory policies in real estate market. As a result, the investment sentiment in the domestic real estate market became conservative and the growth rate of the industry declined. According to the National Bureau of Statistics, comparing with the same period of last year, the growth rate of floor area sold of national commercial housing dropped by 6.4% while the transaction volume growth rate of commercial housing decreased by 1.5%. The building materials and interior decoration products industries continued to capitalise on the opportunities brought by the intensive implementation of the national urbanisation policy, but such positive drivers were impeded by the market environment. Nevertheless, the Group will continue to enhance its competitiveness and optimise its product portfolio to meet customers demand for quality building materials and household products. The Group remains confident in the future development of this business segment and expects to deliver synergies among its businesses in the long run.

The Chinese government has continued to actively implement environmental protection policies and encouraged the development of green industries in recent years. During the year under review, the Group intensified environmental protection strategies, continuously invested resources in technological innovation and development, and established upstream and downstream industrial chains with the pipe products and fittings as the core; thus achieving a synergistic effect with the business for plastic piping systems. The Group strives to become a one-stop environmental service provider in China, creating a green lifestyle for residents and fulfilling its corporate social responsibility in a proactive manner.

The Group began the Lesso Home business from 2017, with an aim to assist Chinese manufacturers to deliver building materials, home furnishings and other consumer products to target customers and consumers around the globe directly, and subsequently to expand the growth for their brands. The Group currently has 12 projects at different stages of development in the United States, Canada, Australia, Thailand, United Arab Emirates and other countries. In the future, the Group will strive to develop Lesso Home into the world s leading sales platform for building materials, home furnishings and other consumer products, and turn its business into a new growth driver for the Group in the long term.

BOARD

Ł + 6

THE COMPOSITION OF THE BOARD

The Board currently comprises 15 directors, including 10 executive directors and 5 independent non-executive directors.

Ł + 6 \ Ó Ł + 6 $ Û _ 15 / Ł + \ Ó d < 10 / B Ł + ¿ 5 / ø m ¢ B Ł + f

THE COMPOSITION OF THE BOARD (Continued)

Pursuant to the articles of association of the Company (the Articles), any director appointed to fill a casual vacancy or as an addition to the existing directors shall hold office only until the next AGM of the Company and shall then be eligible for re-election at that meeting. In addition, at every AGM of the Company, not less than one-third of the directors for the time being shall retire from office by rotation provided that every director shall be subject to retirement by rotation at least once every three years. Apart from retirement by rotation pursuant to the Articles, each non-executive director has a term of within three years. Therefore, no director will remain in office for a term of more than three years. For details relating to any relationship among the members of the Board,

BOARD (Continued)

CHAIRMAN AND CHIEF EXECUTIVE

To segregate the management of the Board from the daily management and business operations of the Group effectively, the post of chairman and the chief executive are held by Mr. Wong Luen Hei and Mr. Zuo Manlun, respectively. One of the important duties of the chairman is to lead the Board to ensure the Board always acts in the best interests of the Group. The chairman shall ensure the effective operation of the Board and fully perform his/her duties and ensure all important issues are discussed at Board meetings in a timely manner. All directors will be consulted for any proposed items in the agenda. The chairman has delegated the drafting of the agenda of each Board meeting to the chief executive and the company secretary. With the assistance of the chief executive and the company secretary, the chairman aims to ensure all directors are adequately briefed on any issues being put forward at a Board meeting and receive sufficient and reliable information in a timely manner.

INDEPENDENT NONE

The independent non-executive directors provide various expertise and experiences, and maintain balance of interest to safeguard the interests of the Group and the Shareholders. They participate in Board meetings and committee meetings and make independent judgements on issues related to the Group s strategies, performance, interest conflicts and management process so as to ensure the interests of all Shareholders are properly considered.

The Company has received annual confirmation made by each of the independent non-executive directors under Rule 3.13 of the Listing Rules regarding their independence. The Company regarded all independent non-executive directors are independent in accordance with Rule 3.13 of the Listing Rules.

DUTIES OF THE BOARD

The Board shoulders the responsibility of providing effective, responsible and reliable leadership to the Group. The Board exercises its rights in management decision on the aspects of the Company s development strategy, management structure, investment and financing, planning, financial control and personnel in accordance with the requirements of the Code.

DUTIES OF THE BOARD (Continued) Ł + 6 “

The Company appointed Ernst & Young as the Company s independent auditor to review the interim results for the six months ended 30 June 2018 and to audit the annual results for the year ended 31 December 2018. The directors of the Company acknowledge their responsibility for preparing the consolidated financial statements included in the annual report and the interim report. In preparing the consolidated financial statements for the year ended 31 December 2018, the directors have selected and applied appropriate accounting policies and have made prudent and reasonable judgements and estimates in accordance with Hong Kong Financial Reporting Standards.

BOARD COMMITTEES (Continued)

NOMINATION COMMITTEE (Continued)

The Nomination Committee shall convene at least one meeting each year. In 2018, the Nomination Committee convened two meetings. The Nomination Committee reviewed the structure, size and composition of the Board, recommended the Board on the list of retiring directors for re-election at the AGM on 25 May 2018, and reviewed the independence of all independent non-executive directors. The Nomination Committee recommended the Board on re-designating Mr. Lin Dewei as an executive director and appointing Mr. Cheng Dickson as an independent non-executive director in accordance with the director nomination policy and Board diversity policy of the Company. The attendance record of the meeting is set out on a named basis on page 18.

BOARD DIVERSITY POLICY

The Board has adopted a Board diversity policy which sets out the approach to achieve diversity on the Board. The Board diversity policy is available on the website of the Company.

The Company recognises that increasing diversity at the Board level will support the attainment of the Company s strategic objectives and sustainable development. The Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and other qualities. The Company will also take into consideration its own business model and specific needs from time to time in determining the optimal composition of the Board. The Nomination Committee will review the Board diversity policy, as appropriate, to ensure its continued effectiveness from time to time.

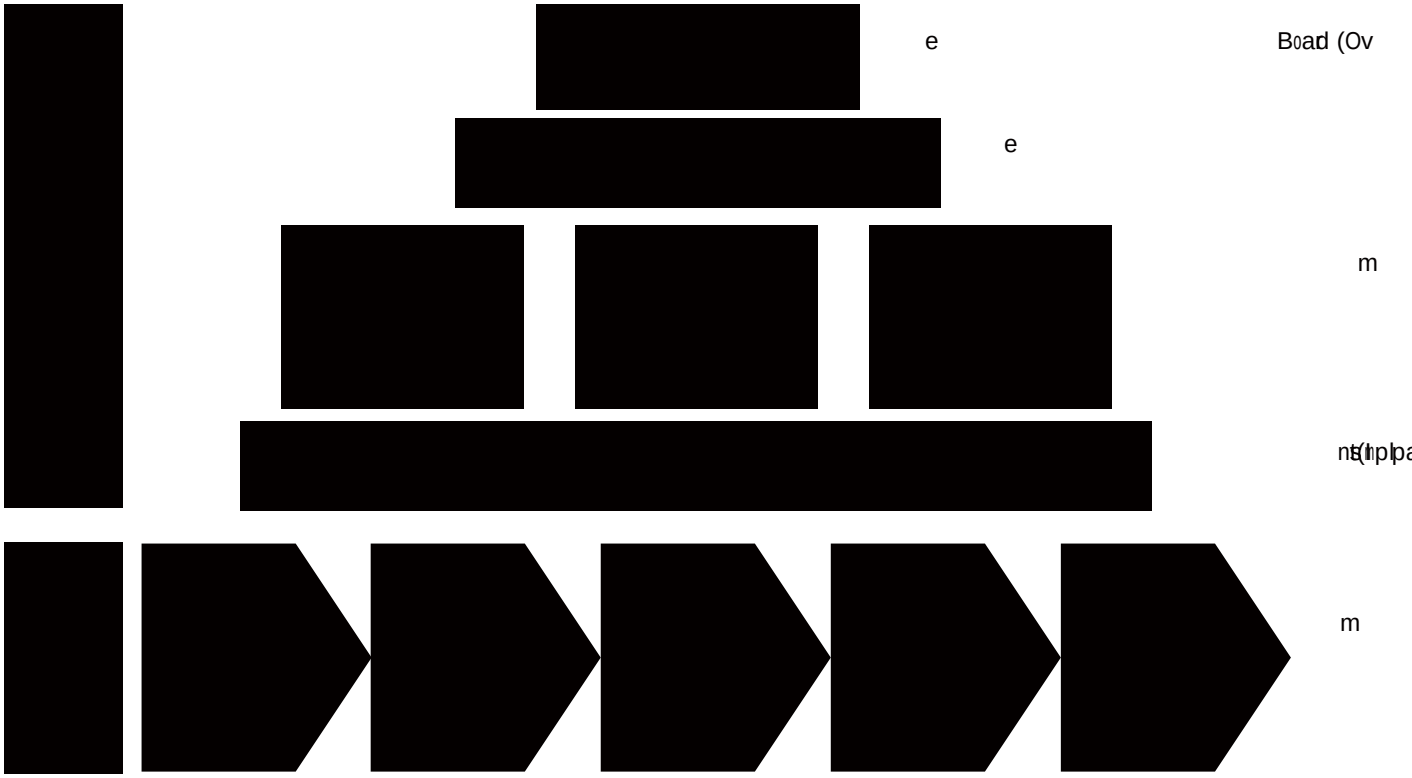

As at the date of this report, the Board comprises 15 directors. Two of them are females. One third of the Board members are independent non-executive directors, thereby promoting critical review and control of the management process. The composition of the Board reflects the necessary balance of skills, professional experience and knowledge for effective leadership of the Company.

MATERIAL RISKS THE GROUP MAY FACE

l « & W Y } ,

In 2018, during the course of business planning, we identified the material risks that the Group may face which include macro-economic risks, risks of inappropriate strategies for market competition, risks of the fluctuation of raw materials price, risks of adjustments of policies in relation to the environmental protection, economy and industry.

2018 ¸ d ¢ A fl 8 @ ß ˇ 9 l « & W Y } , < H ¾ö , e 9) F + , e a ¿ Ø ł * , e › A e ¾öA ~ 8 A ˇ , f

The potential risks of macro-economic risks arise from the effects of macro-economy s volatility and the pressure of inflation. The Group s corresponding measures on risk management include reviewing the management strategies and mechanism for macro-economic risks; reviewing the relevant mechanism on the collection of intelligence about the changes in the external macro-economic environment; clearly defining the macro-economic risk analysis session; analysing, reviewing, adjusting and improving the strategies for managing macro-economic risks in future.

H ¾ö , Y fl , * [H ¾ö * Y B / ¿ • ‹ 1 & Y Àb f l « , — ` £ D < Ł À H ¾ö , Y M # + q M # ÚS i Ł À× « . ¯ H ¾ö / • ˆ · º ÚS i ü ‰ ¨ H ¾ö , – • i – e Ł Àe ˇ q • J 8 Y H ¾ö , — ` + f

MATERIAL RISKS THE GROUP MAY FACE (Continued) I « & W Y } ,

The potential risks of inappropriate strategies for market competition arise from the risks involved in the formulation of competition strategies and risks involved in the collection of clients information. The Group s risk management measures include reviewing the management mechanism for market competition strategies; analysing the Company s position in market competition, reviewing the corresponding market competition strategies; and timely devising and reviewing the management strategies in response to the changes in the market competition environment and submitting report thereon to management; collecting the market competition information of new products and offering suggestions on competition strategies.

9) F + , Y fl , * [ ) F + S , ¿ Ò ˆ × « , f l « , — ` £ D < Ł À 9 ) F + M # Ú S i – l fi ! Y 9 ) F fi d Ł À · — Y 9 ) F + i ¿ Û S ¿ Ł À 9 ) F / • Y — ` + d M # 4 i × « - * Ü 9) F ˆ d d 6) F + Y D f

The potential risks of the fluctuation of raw materials price arise because the price of key raw materials purchased by the Company is easily affected by the shortfall of refining capabilities, changes in manufacturers power and labour cost structure, changes in the price of resins made from coal and petrochemicals. The Group s risk management measures include clearly stating the risk management strategies and mechanism for the fluctuation of raw materials price in the relevant systems; collecting information in relation to the fluctuation of raw materials price and releasing such information internally through an established channel; regularly reporting and analysing the fluctuation of raw materials price; clearly defining the analysis session for the increased risks of fluctuation of raw materials price; analysing, reviewing, adjusting and improving the management strategies for the risks of fluctuation of raw materials price.

The potential risks of adjustments of policies in relation to the environmental protection, economy and industry arise from the risks of adjustments of environmental policies; risks of adjustments of urbanisation policies; risks of adjustments of construction projects of significant water works including water saving and water supplies; risks of adjustments of real estate policies. The Group s risk management measures include reviewing the management strategies and mechanism for risks involved in the adjustments of policies in relation to the environmental protection, economy and industry; collecting information in relation to changes in environmental protection, economy and industry policies and releasing such information internally through an established channel; reviewing the mechanism for monitoring and collecting the information on laws and regulations that affect the industry.

MANAGEMENT OF INSIDE INFORMATION

The Group has formulated a set of program of continuing obligations on information management and disclosure to formally regulate the monitoring of inside information that arises during the course of its current business development and has established the practice of delivering such information to shareholders, the media and analysts. When the Group handles the relevant matters, it will comply with Guidelines on Disclosure of Inside Information issued by Securities and Futures Commission and the related provisions issued by regulatory organisations and the Group has clearly stated that the unauthorised use of confidential or inside information is prohibited. The Group has a system of answering enquiries about the Group s matters by external parties, and has appointed and authorised the senior executives of the Group to act as the Company s spokesperson in response to enquiries on a particular area.

WHISTLEBLOWING POLICY

The Group has formulated a whistleblowing policy whereby employees can report any matters to the chairman or the Audit Committee secretly by sending electronic mails to the designated address or by phone without fear of being accused. Such matters may include misconduct, irregular conduct or fraud regarding financial matters and accounting practices. Any Shareholder or stakeholder can also report similar concerns in writing or verbally in confidence to the Audit Committee.

DIVIDENDS POLICY

The declaration, payment and amount of dividends will be subject to the Company s discretion. Dividends may be paid only out of its distributable reserves as permitted under the relevant laws. The Company has adopted a general dividend policy since the financial year ended 31 December 2018 of declaring and paying dividends

THE SHAREHOLDERS RIGHTS

CONVENING OF EXTRAORDINARY GENERAL MEETING AND PUTTING FORWARD PROPOSALS AT SHAREHOLDERS MEETING There are no provisions allowing Shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law (2013 Revision, as amended from time to time). However, pursuant to the Articles, the Shareholder(s) may request for the convening of extraordinary general meetings following the procedures below:	X

CORPORATE OVERVIEW

China Lesso is a leading large-scale industrial group which produces building materials and interior decoration products in mainland China. The Group established 23 advanced production bases in 16 regions within China and foreign countries to support a nationwide sales network. The Group strives to refine its strategic planning and sales network, offering a comprehensive range of diverse industrial products and quality sales services.

The Group continued to reinforce its leading position in the Chinese market, especially in Southern China, on the strength of its quality products, advanced technologies in research and development and a wide sales network. In recent years, the Group has been actively developing business in other local markets and overseas markets. While steadily upgrading the core business of plastic piping systems, the Group has also expanded the business of building materials and interior decoration products, including systems of doors and windows, sanitary ware products and integrated kitchens, thereby providing all-in-one solution that includes cost-effective building materials, interior decoration products and services for its customers.

The brand name LESSO of China Lesso represents the key elements of the Group s corporate culture: Link, Easiness, Safety, Sharing and Openness , and demonstrates its commitment to Creating a Relaxing Life for Dwellers . Since it was established over 30 years ago, China Lesso has been consistently consolidating its strong brand position and reputation, and has received quality accreditations from many national and professional institutions, including The Most Trusted Brand by Consumers in 2018 , Influential Brand in China s Interior Decoration Industry , Annual Innovative Brand in China s Interior Decoration Industry , Preferred Supplier of Top 500 Chinese Real Estate Development Enterprises in 2018 , China s Top 100 Companies Award , Award for Benchmark Company in Quality Manufacturing in Foshan , and Top 10 Companies Award in China s Light Industry and Plastics Industry . The Group s leading brand position reflects its strong capabilities to conduct product research and development and to ensure excellent product quality. This has laid a foundation for the Group s strong business presence in mainland China and overseas markets, and gave the impetus for further expansion of China Lesso s sales network.

MARKET REVIEW

In 2018, the global economic environment was clouded by a number of uncertainties and underwent changes, such as heightened trade friction between China and the United States as well as turmoil in the European economy as a result of Brexit. Meanwhile, China s economic growth remained stable, and made continued progress due to policies such as supply side structural reform. During the year under review, China enhanced financial deleveraging efforts and adopted stringent macro-control measures on the real estate market, with an aim to continuously cool down

MARKET REVIEW (Continued)

2018 was a year when China made substantial progress of the Action Plan for Prevention and Control of Water Pollution. According to the requirements of the new Law on Prevention and Control of Water Pollution and the related planning under the 13th Five-year Plan of the country, various local governments of China have successively promulgated a series of pollution control policies, which will facilitate sewage control, improve the quality of water environment, enhance the municipal pipeline network and sewage disposal equipment, thus generating enormous market demand for the pipeline industry. In the Water Pollution Prevention and Control Plan for Major River Basins (2016 2020), according to the objective of the 13th Five-year Plan, the National Development and Reform Commission estimated investments in water pollution prevention and control projects in major river basins totalled around RMB700 billion. In particular, the investment in municipal sewage disposal and ancillary (s)0.5 wi0dDevelopmeny

successivelyengwaged if the329 ( )]TJ 0.05 Tc 0 -1.444

MARKET REVIEW (Continued)

Affected by the external economic environment, the building materials and interior decoration market entered a reshuffling period in 2018. During the reporting period, the Chinese government closely and successively launched a number of policies to stringently manage the real estate market from overheating, and the objectives of housing price stabilisation, rental management, leverage reduction, risk aversion, structural adjustment and expectation stabilisation were implemented seriously. According to the Notification of Inspection and Reformation Progress of CPC s Unit at the Ministry of Housing and Urban-Rural Development promulgated by the Ministry of Housing and Urban-Rural Development, the government insisted on its position of Housing is for living, not for speculating . Meanwhile, it was reiterated in the Central Economic Work Conference that a specific strategy for specific cities and specific instruction for specific category orientation will be adopted to develop a long term and effective mechanism for the healthy development of the real estate market. The growth pace of the real estate investment in 2018 slightly slowed down as a result of the policy, which in turn directly affected the performance of the building materials and interior decoration industry. The official implementation of the Environmental Protection Tax Law and the launch of a range of more stringent standard further standardised standards for the building materials and interior decoration industry and accelerated the pace of reshuffling of the industry. However, benefitting from the upgrade of consumption structure are the development of new retail sales, further progress in the supply side structural reform, advances in the new mode of urbanisation and the reorganisation of real estate industry, it will present new opportunities for the building materials and interior decoration industry.

MARKET REVIEW (Continued)

In terms of the development of overseas market, China actively pursued exchanging development ideas and strengthening strategy connection with different countries and regions, in order to achieve cooperation and mutual winning and active promotion of a large number of Sino-foreign cooperation projects, such as China-Myanmar Economic Corridor and China-Europe Railway Express and Hambantota Port, etc. Meanwhile, significant progress has been made in the Belt and Road Initiative as it is continuously developed by China and cooperation has been commenced with over 50 countries during the year under review. The Chinese government continued to increase its support to various industries, thus resulting in overseas markets becoming solid business growth drivers for Chinese companies. The continued expansion of overseas cooperation projects and Belt and Road Initiative provide huge room for infrastructure construction, hence massive demand for the application of pipes and pipe fittings as well as building materials and equipment.

RESULTS AND PERFORMANCE

During the year under review, the Group continued its strict adherence to the national policy to continuously stabilise the plastic piping systems business, and actively develop the building materials and interior decoration business as well as environmental protection business at the same time, in order to broaden the revenue base for the Group. In 2018, benefitting from the Chinese economy which maintained medium to high growth rate and a huge demand for infrastructure construction, the revenue of China Lesso increased by 16.6% year on year to RMB23,734 million (2017: RMB20,360 million). During the year, on the back of the Group s economies of scale, continued enhancement of the production capacity of plant and the implementation of effective cost control, the gross profit rose by 17.1% year on year to RMB6,228 million (2017: RMB5,317 million), with gross profit margin remaining at a healthy level of 26.2% (2017: 26.1%).

PLASTIC PIPING SYSTEMS (Continued) çØM 8 ß U

The Group also continued to boost sales volume of plastic pipes and pipe fittings such that sales volume of the plastic piping systems increased by 8.2% year on year. In terms of product materials, sales volume of PVC products increased by 6.3% year on year to 1,682,949 tonnes (2017: 1,582,697 tonnes), while that of non-PVC products increased by 15.0% year on year to 485,673 tonnes (2017: 422,143 tonnes). Revenue from sales of PVC products increased by 15.4% year on year to RMB13,660 million (2017: RMB11,840 million) while that of non-PVC products increased by 22.5% year on year to RMB7,683 million (2017: RMB6,270 million).

PLASTIC PIPING SYSTEMS (Continued)

With China s steady progress in its plan for development and the robust demand in the field of infrastructure construction, the application of plastic pipes and pipe fittings are further drivers which have contributed to the opportunities of market development. As a market leader, the Group will strive to expand the scope of applications of plastic pipes and pipe fittings to increase product sales, thereby maintaining its market leadership. Overall, the management is fully confident on the future development of the plastic piping systems business segment, and it is believed that the Group will continue to deliver a solid and satisfactory business performance.

BUILDING MATERIALS AND INTERIOR DECORATION PRODUCTS

In 2018, the central government intensively promulgated specific regulations which exerted downward pressure on the growth in the real estate market, resulting in decline in the growth rates of floor area sold and sales value of national commercial housing. During the year, the Group s business of building materials and interior decoration products continued to be under pressure due to external unfavourable factors. Nevertheless, during the year, the Group successfully acquired several large-scale property corporate customers and received more new orders from existing customers. This business steadily developed, and generated income of RMB1,314 million (2017: RMB1,356 million), accounting for 5.6% of the Group s total revenue. The Group anticipated that the regulatory policies for real estate industry in 2019 will turn more accommodative than last year and believed that the business of building materials and interior decoration products will benefit from the positive impacts driven by the less stringent policy implementation. In 2019, the Group will strive to deliver continuous growth in revenue of the business of building materials and interior decoration products, and increase the revenue proportion of this business to the Group s total revenue. At the same time, the Group will strengthen its promotion to existing customers, actively engage new customers and increase sales by provision of diverse products.

OTHERS

Environmental Protection

To cope with the Chinese government's environmental protection initiatives, the Group is actively expanding its environmental protection business. The Group is actively engaged in municipal projects in various fields, including those of municipal sewage system, river treatment, soil restoration, underground pipeline gallery, sponge city, installation of integrated water purifiers. All these projects drove up the demand for plastic pipes and pipe fittings. However, the business development of environmental protection was slightly slower than expected, following the modification to the regulations governing the financing of public-private partnerships projects by the Chinese government. During the year, this business maintained a steady growth and recorded a revenue of RMB188 million (2017: RMB180 million). The Group aspires to become an one-stop environmental protection service provider and to enable people to live eco-friendly lives. The Group entered into a sale and purchase agreement to acquire 70% equity interest in Jiangsu Yongbao Environmental Technology Co., Ltd. (Jiangsu Yongbao) in October 2018 at a consideration of RMB392 million. Pursuant to the agreement, the minority shareholder of Jiangsu Yongbao has the right to sell the remaining 30% equity interest to the Group after three years from the date of acquisition. Jiangsu Yongbao has been engaging in the provision of hazardous waste, wastewater and exhaust fumes treatment services in China. The Group will continue to enhance its own technology, operation and quality, and fostering new growth drivers so as to achieve synergy between its environmental protection business and other businesses, and diversify its source of income.

CORPORATE SOCIAL RESPONSIBILITY

ENVIRONMENT

Environmental protection is always a top priority of China Lesso. The Group has applied the ideas of going green and environmental protection throughout its product design, research and development, production and practical operations, and has adopted a variety of eco-friendly measures to minimise impact on the environment. On top of that, the Group supports the development of environmental protection industry and be committed to water treatment and the construction of sponge city. In addition, the Group establishes a complete environment management system, continues to improve criteria and measures concerning management of environmental protection, adopts a more simplified operating processes and energy-efficient hardware to reduce consumption of energy and water resources, increases benefits from resource consumption, reduces wastes emissions and enhances recycling.

The Group complies with laws and regulations governing air pollution, noise emission, solid waste discharge, and other environmental protection issues in China. The environmental management and compliance department work together with the legal department to ensure the Group will keep abreast of the latest development on environment-related laws and regulations.

COMMUNITY ENGAGEMENT

China Lesso takes an active part in community investment and public welfare and provides care for underprivileged groups in the society, aiming to apply its influence, bring positive changes to the communities where it operates, and maintain sound relations with the communities where it operates. Further, the Group actively supports the development of education in poverty-stricken areas and encourages its employees to serve the community as volunteers.

CORPORATE SOCIAL RESPONSIBILITY (Continued) 8 _ 6 “

EMPLOYEE

China Lesso recognises employees as one of its most important assets. In strict compliance with the applicable laws and regulations, the Group protects the legitimate rights and interests of its employees and fixes on its pay system based on the principles of legality, equity, fairness and encouragement so as to ensure an equal access to fair treatment and career opportunities. In addition, the Group has formulated its own health and safety policies, intensified safety training for employees, carried out routine safety patrols and actively pushed forward with relevant management system building for the purpose of creating a safe working environment for its employees, achieving a work-life balance for its employees through diverse activities.

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31 December 2018, the total turnover attributable to the Group s five largest customers was less than 4.0% of the Group s total turnover. The total purchase attributable to the Group s five largest suppliers was 43.2% of the Group s total purchases and the purchases from the largest supplier included therein amounted to 31.6%.

At no time during the year did the directors, their close associates or any Shareholder (which to the knowledge of the directors own more than 5% of the Company s issued share capital) had any beneficial interests in these suppliers or customers referred to above.

CHARITABLE DONATIONS

During the year, the Group s charitable donations were approximately RMB5.13 million (2017: RMB4.63 million).

TAX

The directors are not aware of any tax relief and exemption available to the Shareholders by reason of their holding of the Company s securities.

PREEMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company s articles of association or the laws of Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing Shareholders.

DIRECTORS

Directors in office during the year and up to the date of this report are as follows:

E		X
Mr. Wong Luen Hei *(Chairman)*		
Mr. Zuo Manlun *(Chief executive)*		
Ms. Zuo Xiaoping		
Mr. Lai Zhiqiang		
Mr. Kong Zhaocong		
Mr. Chen Guonan		
Dr. Lin Shaoquan		
Mr. Huang Guirong		
Mr. Luo Jianfeng		
Mr. Lin Dewei	(re-designated from non-executive director to executive director on 11 July 2018)	
INDEPENDENT NONE		
Mr. Wong Kwok Ho Jonathan		
Mr. Cheung Man Yu		
Ms. Lan Fang		
Dr. Tao Zhigang		
Mr. Cheng Dickson	(appointed on 11 July 2018)	
Mr. Fung Pui Cheung	(resigned on 11 July 2018)	

Pursuant to Article 16.2 of the articles of association of the Company, Mr. Cheng Dickson shall retire from office at the 2019 AGM and, being eligible, offer himself for re-election.

Pursuant to Article 16.18 of the articles of association of the Company, Mr. Wong Luen Hei, Mr. Kong Zhaocong, Dr. Lin Shaoquan and Mr. Wong Kwok Ho Jonathan are subject to retirement by rotation at the 2019 AGM and, being eligible, offer themselves for re-election.

Biographical details of directors are set out on pages 7 to 12.

DIRECTORS SERVICE CONTRACTS

No director proposed for re-election at the 2019 AGM has a service contract which is not determinable by the Group within one year without payment of compensation (other than statutory compensation).

DIRECTORS AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 December 2018, the interests and short positions of the directors and the chief executive of the Company in the shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of SFO) as recorded in the register to be kept by the Company pursuant to

INTERESTS AND SHORT POSITIONS OF OTHER SHAREHOLDERS PURSUANT TO SFO

As at 31 December 2018, the following persons (other than a director or chief executive of the Company) had interests or short positions in the shares or underlying shares of the Company as recorded in the register required to be kept under section 336 of the SFO:

[redacted]

SHARE OPTION SCHEME (Continued)

The total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other schemes of the Group shall not in aggregate exceed 300,000,000 Shares, representing 9.67% of the issued Shares as at 31 December 2018. The maximum number of Shares issued and to be issued upon the exercise of the options granted to any Eligible Persons (including exercised and outstanding options) in any 12-month period share not exceed 1% of the issued share capital of the Company from time to time. There is no minimum period for which an option must be held before it can be exercised. The subscription price in respect of the any particular option shall be the price as the Board may in its discretion determine at the time of grant of the relevant option but the subscription price shall not be less than whichever is the highest of: (a) the nominal value of a Share; (b) the closing price of a Share as stated in the Stock Exchange s daily quotations sheet on the offer date; and (c) the average closing price of a Share as stated in the Stock Exchange s daily quotations sheet for the five business days immediately preceding the offer date.

The Share Option Scheme shall be valid and effective for a period of 10 years commencing on the Adoption Date. An offer of the grant of a share option shall remain open for acceptance by the Eligible Person concerned for a period of 28 days from the date of the Board approving the grant of the share options (the Offer Date) provided that no such grant of an option may be accepted after the expiry of the effective period of the Share Option Scheme. An option shall be deemed to have been granted and accepted by the Eligible Person and to have taken effect when the duplicate offer letter comprising acceptance of the offer of the Option duly signed by the grantee together with a remittance in favour of the Company of HK$1 by way of consideration for the grant thereof is received by the Company on or before the date upon which an offer of an option must be accepted by the relevant Eligible Person, being a date not later than 28 days after the Offer Date. Such remittance shall in no circumstances be refundable.

OPINION

We have audited the consolidated financial statements of China Lesso Group Holdings Limited (the Company) and its subsidiaries (the Group) set out on pages 86 to 230, which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

¢ A 2 Ł 1 ı K 86 230 + Y 7 L ç« p Þ" fi ! n fi ! ¿ l n fi ! n « Y] ¥ Ì d ä] ¥ Ì < ı 2018 ¸ 12 Ü 31 ÚY] ¥ Ì K 1 ~ Ú Ú ß¸ Y] ¥ & B ¿ l ü & × B e] ¥ ˇ B q] ¥ $ t d ł ¿] ¥ Ì W d < ô 6 A ? f

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (HKFRSs) issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

¢ A ' d] ¥ Ì ðY‘S ˜Jo ÌÀ D—Ã2˜

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (HKSAs) issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor s responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA s *Code of Ethics for Professional Accountants* (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor s responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

¸ Ô1 Y I ü Ø

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor s report thereon.

n fi ! Ł + Œ ` I ü Ø “ f I ü Ø < ı ¸ « 1 Y Ød (<] ¥ Ì ¿ ¢ A Y Ł p “ S f

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

¢ A ` ] ¥ Ì Y ( I ü Ød ¢ A u ` I ü Øï Ì Y Æ ˙ f

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group s financial reporting process.

AUDITORS RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor s report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

¢ A Y f z d J ` ] ¥ Ì ˘ J I Àfl _ ı _ — y ‹ þ‹ ç Y } y ‹ Ó _ { ¥ # › ˙ d ( H < ¢ A Y Ł p “ S f ¢ A ˆ ` Óp * S f ðä . I S * I ü \ ˜ d ¢ A ? 1 I S Y « ` I ü[{ j — Õ˜ “ f

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

¥ # › ˙ J ÷å; Y › ˙ d (› ˙ 2 k 0 ¥ 2 Ł _ ˘ Y 2 Ł d fl T S } y ‹ Ó Àfl Û< ï $ f y ‹ Ó ł _ _ — y ‹ ˘ ¸ d ‰ ¥ # k 4 A ø —@i < ¸ 8 B ⁄] ¥ Ì 4 \ k 1 ‘] ¥ Ì Ô* Y ¾ö Ô d ˘ Þº Y y ‹ Ó V * } f

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

fl ì ‰ 0 ¥ 2 Ł _ ˘ 2 Ł Y @ ß d ¢ A 6 \ Y Y 8 : Ùd › 5 Y Y 8 2 Ò f ¢ A u j

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

AUDITORS RESPONSIBILITIES FOR THE AUDIT OF Ł p “ 1 2 Ł] ¥ Ì Õ˜ Y “ THE CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

Conclude on the appropriateness of the directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor s report. However, future events or conditions may cause the Group to cease to continue as a going concern.

AUDITORS RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. CORPORATE AND GROUP INFORMATION

The Company is a limited liability company incorporated in the Cayman Islands. The addresses of its registered office and principal places of business are disclosed in the section headed "Corporate Information" of this report.

The Company is an investment holding company. Particulars of the Company's principal subsidiaries, associates and joint ventures are set out in notes 45, 17 and 18 to the consolidated financial statements, respectively.

2.1 BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment

consolidated financial t venhavsialre disRenminbiy accept43

2.1 BASIS OF PREPARATION (Continued)

BASIS OF CONSOLIDATION (Continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(i) the contractual arrangement with the other vote holders of the investee;

(ii) rights arising from other contractual arrangements; and

(iii) the Group s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributable to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

HKFRS 9 (Continued)

Impairment

HKFRS 9 requires an impairment on debt instruments recorded at amortised cost or at fair value through other comprehensive income, lease receivables, loan commitments and financial guarantee contracts that are not accounted for at fair value through profit or loss under HKFRS 9, to be recorded based on an expected credit loss model either on a twelve-month basis or a lifetime basis. The Group has applied the simplified approach and recorded lifetime expected credit losses that are estimated based on the present value of all cash shortfalls over the remaining life on trade and bills receivables and contract assets, and general approach and recorded twelve-month expected credit losses on other financial assets, loan receivables and financial assets included in prepayments, deposits and other receivables. The aforesaid transition upon the adoption of HKFRS 9 does not have material impact on the Group s consolidated financial statements.

As a result of the application of HKFRS 9, the Group has changed the accounting policy with respect to investments and other financial assets in note 2.4 to the consolidated financial statements.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

HKFRS 15

HKFRS 15 and its amendments replace HKAS 11 Construction Contracts, HKAS 18 Revenue and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. HKFRS 15, establishes a new five-step model to account for revenue arising from contracts with customers. Under HKFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in HKFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The disclosures are included in notes 3 and 5 to the consolidated financial statements. As a result of the application of HKFRS 15, the Group has changed the accounting policy with respect to revenue recognition in note 2.4 to the consolidated financial statements.

The Group adopted HKFRS 15 using the modified retrospective method of adoption and it elected to apply that method only to those contracts that were not completed at the date of initial application. The comparative information for each of the primary financial statements would be presented based on the requirements of HKAS 11, HKAS 18 and related interpretations.

The cumulative effect of the initial application of HKFRS 15 was immaterial and no opening balance of retained profits as at 1 January 2018 was adjusted. Therefore, the comparative information was not restated and continues to be reported under HKAS 11, HKAS 18 and related interpretations.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.4 ô 6 A ?

INVESTMENTS IN ASSOCIATES AND JOINT VENTURES

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

ı L fi ! ¿ ¥ 8 Y ‡

l ‡ C ˘ Y ˘ B Y ... d (` l ï
h } B / b f } B / b 8 ~ ‡ `
e Y Ì A ¿ ¾ Ô ˘ b d þ ¢ S —
S Ô ˘ b f

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Group s investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group s share of net assets under the equity method of accounting, less any impairment losses.

l « ı L fi ! ¿ ¥ 8 Y ‡ W 2
˘ B 6 , Ł Q d 2 l « — & * Ô
ð fl = f & ı] ¥ Ì K 1 O f

The Group s share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in profit or loss and other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associates or joint ventures, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group s interests in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group s investments in associates or joint ventures.

INTEREST IN JOINT OPERATION

ı ¥ 8 ˘ B

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BUSINESS COMBINATIONS AND GOODWILL

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition-date fair value which is the sum of the acquisition-date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation either at fair value or at the proportionate share of the acquiree s identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition-date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BUSINESS COMBINATIONS AND GOODWILL (Continued)
Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group will perform its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ?

FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PROPERTY PLANT AND EQUIPMENT AND DEPRECIATION (Continued)

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the period the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents buildings and other assets under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost represents the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

INVESTMENT PROPERTIES

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property. 7

INTANGIBLE ASSETS (OTHER THAN GOODWILL)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENTS AND OTHER FINANCIAL ASSETS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218)

Initial Recognition and Measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (FVTOCI), and fair value through profit or loss (FVTPL).

The classification of financial assets at initial recognition depends on the financial asset s contractual cash flow characteristics and the Group s business model for managing them. With the exception of trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs. Trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the poicomponent expedient ar67.5 (f)0.6 (i)0.5 (n)0.6 (a Tc 3 Tc 0R.5 (n)v.5 (n)n

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

INVESTMENT AND OTHER FINANCIAL ASSETS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218) (continued)

Subsequent Measurement (continued)

Financial assets at fair value through other comprehensive income (debt instruments) (continued)

For debt instruments at FVTOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to profit or loss.

Financial assets designated at fair value through other comprehensive income (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVTOCI when they meet the definition of equity under HKAS 32 *Financial Instruments: Presentation and are not held for trading*. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVTOCI are not subject to impairment assessment.

l

Financial assets at fair value through profit or loss

Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at FVTPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at FVTOCI, as described above, debt instruments may be designated at FVTPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

FINANCIAL INSTRUMENTS (POLICIES UNDER HKAS 39 APPLICABLE BEFORE 1 JANUARY 218) (continued)

Financial assets (continued)

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity dates that the Group has the positive intent and ability to hold to maturity.

Subsequent to initial recognition, held-to-maturity investments are measured at amortised cost using the effective interest method less any impairment losses.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated as available-for-sale or are not classified as (a) financial assets at FVTPL, (b) held-to-maturity investments or (c) loans and receivables.

Available-for-sale financial assets (continued)

6 / D *

Equity and debt securities held by the Group that are classified as available-for-sale financial assets and are traded in an active market are measured at fair value at the end of each reporting period. Changes in the carrying amount of available-for-sale monetary financial assets relating to interest income calculated using the effective interest method and dividends on available-for-sale equity investments are recognised in profit or loss. Other changes in the carrying amount of available-for-sale financial assets are recognised in other comprehensive income and accumulated under the heading of available-for-sale investment revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the available-for-sale investment revaluation reserve is reclassified to profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218)

The Group recognises an allowance for ECLs for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General Approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 5 years past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ?

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218) (Continued)

General Approach (Continued)

Debt instruments at FVTOCI and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade and bills receivables and contract assets which apply the simplified approach as detailed below.

Stage 1	Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
Stage 2	Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
Stage 3	Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified Approach

For trade and bills receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade and bills receivables that contain a significant financing component, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ?

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKAS 39 APPLICABLE BEFORE 1 JANUARY 218)

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

D * fl = ı 218 ¸ 1 Ü1 ÚˆG \ Y 0 ¥ 6 _ ˇ K 39 î A l « ı ¢ S K Y Þl H8q e j S ° — S \ D * $ fl = f J ı ‰ ' * ï [Y S ° — µ ° + ` ° — \ D * Y J 8 $ t ¿ ÓB / dþ B / D f fi d ˇ ° — \ D * $ fl = f fl = & e < S / À [— S \ À [M fl ¾Ý } Ì b í e î Þ ; „ — l e N * — l üÌ \ d ł ¿ Þü p ‰ j J 8 $ t $ Y fl ˙ d 7 ‰ Þ p f — ~ < Ò · º Y ¾ö K 1 f

Financial Assets Carried at Amortised Cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

2 ¯ V ÓI * Y D * Þº 2 ¯ V ÓI * Y D * d l « / ø m Y ° } Y D * Þl fl = & e d — Y ¢ ° } Y D * Þl H fl = & e f J l « > H 9 Y D * (Ì H fl = & e d ˇ Þº * J l } d 6] S \ Þ · ' ƒ r , $ D Y D * d * fl = Y f ` ı H 9 * fl = Y Y * d J l ‰ ' — 5 ‰ ' fl = f & d ˇ 6] fl = Y f

The amount of any impairment loss identified is measured as the difference between the asset s carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset s original effective interest rate.

ˇ 9 Y fl = f & 2 * * & = ~ J 8 $ t < J * [Y J 8 ƒ r f & Y $ = ¤ X f J 8 $ t Y $ = 6 2 D * Y a ... ç ; – + f

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKAS 39 APPLICABLE BEFORE 1 JANUARY 2018) (Continued)

Financial Assets Carried at Amortised Cost (Continued)

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to profit or loss.

Financial Assets Carried at Cost

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset s carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ?

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKAS 39 APPLICABLE BEFORE 1 JANUARY 2018) (Continued)

D * fl = ı 218 ¸ 1 Ü1 Ú^ G \ Y 0¥6 _˘K 39 î A

Available-For-Sale Financial Assets

6 / D *

For available-for-sale financial assets, the Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired.

` ı 6 / D * þ dl « ı ¢ S K Y J l Þ H ˙ ‰ j S ° D * — S \ D * $ fl = f

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is removed from other comprehensive income and recognised in profit or loss.

J S ° 6 / D * $ fl = d l Ó l = Ôð l ø ¿ ¯ V ~ l $ Û fi “ = ¤ X fl ^ ı & B « ‰ ' fl = f & X d 6 } l ü & ×B \ ðd (ı & B « ‰ ' f

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. Significant is evaluated against the original cost of the investment and prolonged against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss is removed from other comprehensive income and recognised in profit or loss. Impairment losses on equity instruments classified as available-for-sale are not reversed through profit or loss. Increases in their fair value after impairment are recognised directly in other comprehensive income.

J n – ó 6 / p ˘ ‡ d ˘ H ˙ ‰ < S ° ‡ fi “ = } 7 — % - ı l Ól = f } 7 J · ` ı ‡ Ól * Y d þ ˘ J Y fi “ = - ı Ól f J $ fl = ˙ ‰ d] f & 2 × Ól ~ ^ fi “ = ¤ X fl ° ‡ ^ ı & B « ‰ ' fl = f & Z } l ü & ×B \ ðd (ı & B « ‰ ' f – ó 6 / p l H fl = f & À@ & B a « d þl fl = # Y fi “ = 6 \ ı l ü & ×B ‰ ' f

The determination of what is significant or prolonged requires judgement. In making this judgement, the Group evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

2.4 ô 6 A ?

IMPAIRMENT OF FINANCIAL ASSETS (POLICIES UNDER HKAS 39 APPLICABLE BEFORE 1 JANUARY 218) (Continued)

D * fl = ı 218 ¸ 1 Ü1 ÚˆG \ Y 0 ¥ 6 _ ˇ K 39 î A

Available For Sale Financial Assets (Continued)

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss. Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Impairment losses on debt instruments are reversed through profit or loss if the subsequent increase in fair value of the instruments can be objectively related to an event occurring after the impairment loss was recognised in profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FINANCIAL LIABILITIES (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 2018 AND HKAS 39 APPLICABLE BEFORE 1 JANUARY 2018) (Continued)

Financial Liabilities at Fair Value Through Profit or Loss

Financial liabilities at FVTPL include financial liabilities held

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in profit or loss. The net fair value gain or loss recognised in profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at FVTPL are designated at the date of initial recognition, and only if the criteria in HKFRS 9 are satisfied. The Group has not designated any financial liability as at FVTPL.

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

DERIVATIVE FINANCIAL INSTRUMENTS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218 AND HKAS 39 APPLICABLE BEFORE 1 JANUARY 218)

Initial Recognition and Subsequent Measurement

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which case the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

Embedded Derivatives

Derivatives embedded in non-derivative host contracts are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

DERECOGNITION (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 218 AND HKAS 39 APPLICABLE BEFORE 1 JANUARY 218)

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred a96slf the Group(continues(toerecognisf the assen)-3 ( )]TJ 0.424 Tc 0.092 Tw 0 -1.444 TD [to theextuent(ofihts(c

2.4 ô 6 A ?

DERECOGNITION (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 2018 AND HKAS 39 APPLICABLE BEFORE 1 JANUARY 2018) (Continued)

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

OFFSETTING OF FINANCIAL INSTRUMENTS (POLICIES UNDER HKFRS 9 APPLICABLE FROM 1 JANUARY 2018 AND HKAS 39 APPLICABLE BEFORE 1 JANUARY 2018)

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.4 ô 6 A ?

INVENTORIES

Inventories are stated at the lower of cost and net realisable value.

Manufacturing and Trading

Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Property Development

Cost comprises land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of cash management.

PROVISIONS

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in profit or loss.

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

REVENUE RECOGNITION (APPLICABLE FROM 1 JANUARY 218)

Revenue from Contracts with Customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the

REVENUE RECOGNITION (APPLICABLE BEFORE 1 JANUARY 218)

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

(a) revenue from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;

(b) contract revenue from the renovation and installation work on the percentage of completion basis, as further explained in the accounting policy Construction contracts below;

(c) income from financial service including:

(i) handling fee income from factoring services and supply-chain financing services, when the relevant services have been rendered;

(ii) finance lease income, over the period of lease, as further explained in the accounting policy Leases above; and

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

CONTRACT LIABILITIES (APPLICABLE FROM 1 JANUARY 218)
A contract liability is the obligation to transfer goods or services to a customer for which the Group has received a consideration (or an amount of consideration that is due) from the customer. If a customer pays the consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

EMPLOYEE BENEFITS
Pension Schemes
In accordance with the relevant laws and regulations, the Group s employees participate in various defined contribution plans and state-management retirement benefit plans in the countries in which the Group operates. Payments to these plans, where the Group s obligations under them are equivalent to a defined contribution plan, are recognised as an expense when employees have rendered service entitling them to the contributions.

Share-based payments
The Company operates a share option scheme and a share award scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group s operations. Employees (including directors) of the Group receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is measured by reference to the fair value at the date at which they are granted.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group s best estimate of the number of equity instruments that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FOREIGN CURRENCIES

The Company s functional currency is HK dollar while the Company s presentation currency for the consolidated financial statements is Renminbi. In preparing the financial statements of each individual group entity, transactions in currencies other than the entity s functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks; and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FOREIGN CURRENCIES (Continued)

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group s foreign operations are translated into Renminbi using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange fluctuation reserve (attributed to non-controlling interests as appropriate).

On disposal of a foreign operation, all of the exchange differences accumulated in equity in respect of the operation attributable to the owners of the Company are reclassified to profit or loss.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group s consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

3. ô 6 : Ù¿

JUDGEMENT

: Ù

Deferred Tax Liabilities

¨ • ü° À

Deferred income tax liabilities have not been established for income tax and withholding tax that would be payable on certain profits of the subsidiaries in the PRC to be repatriated and distributed by way of dividends as the directors consider that the timing of the reversal of the related temporary differences can be controlled and such temporary differences will not be reversed in the foreseeable future.

Impairment of Goodwill, Brand Name and Operating Concession Rights

e î ¿ $ ¢ ¾ ˘ fl =

The Group determines whether goodwill, brand name and operating concession rights with indefinite useful lives are impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill, brand name and operating concession rights are allocated. Estimating the value in use requires the Group to make an estimation of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. At the end of the reporting period, the carrying amounts of goodwill, brand name and operating concession rights were RMB363,133,000 (2017: RMB85,309,000), RMB110,520,000 (2017: RMB110,520,000) and RMB24,550,000 (2017: RMB24,550,000), respectively. Further details are disclosed in note 16 to the consolidated financial statements.

TRANSFERRED FINANCIAL ASSETS THAT ARE NOT DERECOGNISED IN THEIR ENTIRETY

At the end of the reporting period, the Group entered into a factoring arrangement (the Arrangement) to transfer a bill receivable (the Factoring Bill) to a third-party factoring company in PRC with a carrying amount in aggregate of RMB250,000,000 (2017: Nil). Under the Arrangement, the Group may be required to reimburse the third-party factoring company for loss of principal and interest if any trade debtors have late payment up to 30 days. In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to such Factoring Bill, and accordingly, it continued to recognise the full carrying amounts of the Factoring Bill. Subsequent to the transfer, the Group did not retain any rights on the use of the Factoring Bill, including the sale, transfer or pledge of the Factoring Bill to any other third parties. The associated liabilities recognised relating to the Factoring Bill at the end of the reporting period were RMB250,000,000 (2017: Nil).

24. TRADE AND BILLS RECEIVABLES (Continued)

TRANSFERRED FINANCIAL ASSETS THAT ARE DERECOGNISED IN THEIR ENTIRETY

At the end of the reporting period, the Group entered into a factoring arrangement to transfer a bill receivable (the "Derecognised Bill") to a third-party factoring company in mainland China with a carrying amount in aggregate of RMB241,083,000 (2017: Nil). The Derecognised Bill had a maturity of twelve months at the end of the reporting period. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Bill have a right of recourse against the Group if the trade debtors default (the "Continuing Involvement"). In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Bill. Accordingly, it has derecognised the full carrying amounts of the Derecognised Bill. The maximum exposure to loss from the Group's Continuing Involvement in the Derecognised Bill and the undiscounted cash flow to repurchase the Derecognised Bill is equal to its carrying amount. In the opinion of the directors, the fair value of the Group's Continuing Involvement in the Derecognised Bill is not significant.

At the end of the reporting period, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Bill. No gain or loss was recognised from the Continuing Involvement, both during the year or cumulatively. The factoring business has been made sporadically.

The movements in the loss allowance for impairment of the Group's trade and bills receivables are as follows:

IMPAIRMENT UNDER HKFRS 9 FOR THE YEAR ENDED 31 DECEMBER 218

Ú 218 ¸ 12 Ü31 Úß¸ 0 ¥ Ì S _ ˇ K 9 î Y fl =

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on the invoice date for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type, customer type and rating, and coverage by letters of credit or other forms of credit insurance). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

31. DEFERRED TA

31. ¨ • ü ° X

ı l ¸ ¿ j S ¸ ‰ ' Y ô ¨ • ü
° * J À ¿ l ‰ h j

31. DEFERRED TA (Continued)

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between mainland China and the jurisdictions of the foreign investors. The applicable rate for the Group is 5%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in mainland China in respect of their earnings generated from 1 January 2008.

At the end of the reporting period, the Group has not recognised deferred tax liabilities of RMB350,709,000 (2017: RMB275,791,000) in respect of temporary differences relating to the undistributed profits of subsidiaries, amounting to RMB7,014,180,000 (2017: RMB5,515,812,000), that would be payable on the distribution of these retained profits as the Company controls the dividend policy of these subsidiaries and it is probable that these profits will not be distributed in the foreseeable future.

32. DEFERRED INCOME

Deferred income represents government grants received by the Group as financial subsidies for the construction of new factory premises in Changchun, Daqing, Hubei and Hunan and rental income received in advance from certain of the Group s employees for leasing the staff quarters.

The government grants are released to profit or loss over the expected useful lives of the relevant premises by equal annual instalments, while rental income received in advance is recognised on the straight-line basis over the respective lease terms.

36. BUSINESS COMBINATION (Continued)

Acquisition-related cost incurred in relation to the above acquisition is insignificant and have been excluded from the cost of acquisition and have been recognised directly as expense for the year and are included in other expenses in profit or loss.

37. DISPOSAL OF SUBSIDIARIES

During the year, the Group entered into share transfer agreements to transfer its 60% equity interest in Guangdong Lesso Home Corporate Planning Co., Ltd*., 100% equity interest in Guangdong Lesso Home Building Material China Co., Ltd*., 100% equity interest in Wuhan Lesso Mall Co., Ltd*. and 25% equity interest in Guangdong Lianging to several independent third parties respectively. Pursuant to the share transfer agreements, the Group no longer has the control over these companies.

41. RELATED PARTY TRANSACTIONS AND BALANCES (Continued)

(A) THE GROUP'S MATERIAL TRANSACTIONS WITH RELATED PARTIES DURING THE YEAR (Continued)

Note:

(i) Sale of goods and services to related companies were made with reference to the prices and conditions offered by the Group to third-party customers.

(ii) Utilities were provided by related companies at cost.

(iii) Rental expenses were based on mutually agreed terms.

(iv) Purchase of materials from related companies were made based on mutually agreed terms.

(v) Purchase of machinery, equipment and electronic accessories and other intangible assets from related companies were made with reference to the prices and conditions offered by the related companies to their third-party customers.

(vi) Licensing trademarks to related companies were conducted based on mutually agreed terms.

(vii) Hotel expenses were based on mutually agreed terms.

(viii) The consideration was agreed after arm's length negotiations with reference to the fair value of net assets of Lesso Hardware of approximately RMB25,000,000 as at 7 July 2017.

(ix) The consideration was equivalent to the amount due from Lesso Hardware of the Group as at 7 July 2017.

(x) Agency services and advisory services were provided by related companies based on mutually agreed terms.

(xi) Properties including office premises, cafeteria, workshops, warehouses and yacht were leased to the Group based on mutually agreed terms.

(xii) Services were provided by a joint venture based on mutually agreed terms.

These related party transactions constitute connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules but are exempted from complying with the disclosure requirements under the Listing Rules.

42. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS (Continued)

(b) FAIR VALUE OF THE FINANCIAL INSTRUMENTS THAT ARE MEASURED AT FAIR VALUE (Continued)

Liabilities Measured at Fair Value:

Derivative financial instruments	[D H

The Group did not have any financial liabilities measured at fair value as at 31 December 2017.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2017: Nil).

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group s principal financial instruments comprise borrowings and cash and short-term deposits. The main purpose of these financial instruments is to raise finance for the Group s operations. The Group has various other financial assets and liabilities such as trade and other receivables

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. As the Group's exposure to these risks is kept to a minimum, the Group has not used any derivatives and other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

INTEREST RATE RISK

In respect of the floating interest rate instruments, the Group is subject to the cash flow interest rate risk, while for the fixed interest rate instruments, the Group is subject to fair value interest rate risk.

The following table demonstrates the sensitivity to a reasonably possible change in interest rate, with all other variables held constant, of the Group's profit before tax by assuming the floating rate borrowings outstanding at the end of the reporting period were outstanding for the whole year.

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

CREDIT RISK (Continued)

The Group's debt instruments at FVTOCI comprised solely of quoted bonds that are graded in the top investment category and, therefore, are considered to be low credit risk investments.

Bank deposits are mainly placed with state-owned financial institutions and reputable banks which are all high-credit-quality financial institutions.

The Group considers the probability of default upon initial recognition of financial assets and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Maximum exposure and year-end staging at the end of the reporting period.

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on invoice date unless other information is available without undue cost or effort, and year-end staging classification at the end of the reporting period. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.
